## HISTORICAL MONUMENT VISIT

### KUTHIRAMALIKA

## REPORT

BNVCTE conducted a field trip for the fifty-four students of 2024-2026 batch. On 19<sup>th</sup> October 2024 we visited the historical monument KUTHIRAMALIKA located in Thiruvananthapuram, Kerala. This trip was an enlightening experience for us. We were accompanied by our Principal Dr Lakshmi S, our trip coordinator Mrs Rekha L R and other teaching staffs. The palace, built in the mid-19th century by Maharaja Swathi Thirunal Balarama Varma, is an architectural marvel showcasing traditional Kerala craftsmanship.

The purpose of our field trip was to explore its cultural, historical, and architectural significance. We learned not only about the architectural brilliance of the palace but also the history of the Travancore royal family and their contribution to art, culture, and governance. The art gallery situated within close proximity to the palace complex, provided us with an additional cultural and artistic experience after the palace tour. The visit deepened our appreciation for Kerala's heritage and the preservation of historical landmarks. The field trip will remain a memorable part of our educational journey, enriching our understanding of history and architecture.
