

A Visit to Kripatheeram Oldage home Muttacaud

On November 22, 2024, the BNV College of Teacher Education engaged in a meaningful outreach initiative by visiting the Kripatheeram Old Age Home. Accompanied by Dr. Lakshmi, the Principal of BNVCTE, a group of fifty-four students along with four faculty members participated in this event. During their visit, the students organized a variety of programs, while the residents of the old age home also showcased their own activities, fostering an atmosphere of mutual engagement. The visit lasted over two hours, providing an enriching experience for both the students and the elderly residents, who were heartening to observe. The dedicated sisters at Kripatheeram ensured that the elderly women received exceptional care and attention.

As a gesture of affection and support, the students contributed a monetary donation to the home, further enhancing the spirit of compassion that characterized the visit. Overall, this experience was profoundly impactful and left a lasting impression on all participants.
