

REPORT ON CYBER CRIME AWARENESS PROGRAMME

A Cyber Crime Awareness Programme was conducted on 14th February 2025 at the E.T. Lab to educate students and faculty members about the risks and consequences of cybercrime.

The session was led by Mr. Aswin, Cyber Police officer, and delivered an insightful and engaging presentation, covering various critical topics such as types of cybercrime, online safety measures, and the importance of reporting cyber incidents. His session provided valuable information on how to stay safe in the digital world and prevent cyber threats.

The event witnessed a participation from Principal Dr. Lakshmi ma'am, faculty members, and students. The interactive nature of the presentation encouraged participants to ask questions and share their concerns regarding online security.

The programme concluded with a feedback session by Bhagya (First year B. Ed Student) who expressed gratitude to Mr. Aswin for his efforts in spreading awareness about cybercrime. The participants appreciated the session and found it highly informative.

The Cyber Crime Awareness Programme was a great success and BNVCTE aims to continue organizing similar events in the future to promote cyber safety and awareness among students and faculty members.
